Platzi

Full Stack Java Program
Oracle Next Education

EXPERIENCE

Pokedex
Mobile App, Personal Project, May 2023
- Built and designed a Pokemon app using React Native (Expo CLI) and TypeScript.
- Implemented Redux as the state management solution to handle application data.
- Created an Express API for user authentication, which also allows for real-time updates in the user's Favorites system.

Task list
Website, Personal Project, April 2023
- Built a React page with JavaScript using a glassmorphism-inspired design.
- Developed task management functionality, allowing users to search, create, modify, select, and delete several tasks at the same time.
- Integrated the Storage API for task persistence within the user's browser.

Hotel Booking System
Desktop App, Personal Project, February 2023
- Created a Java app to manage clients' reservation information which are stored in a local MySQL database, utilizing a connection pooling mechanism.
- Implemented synchronized removal of customer information upon reservation deletion, ensuring data consistency.

EDUCATION

Systems Engineering, 2019 - Present
Universidad Tecnológica Nacional (UTN)

Mechanical Technician, 2013 - 2018
Escuela Técnica N°9 Ing. Luis A. Huergo
